Professional Experience

July — September 2015   Mountain View, California
LOCALIZATION PROJECT MANAGER INTERN   Mozilla Corporation

I worked on translation and quality assurance schedule for Firefox OS with Product, Quality Assurance, Engineering, and Business Development teams. I've been building thriving volunteer communities in Africa and lead localization workshops in Japan and Thailand with Asian volunteers. I learned a lot about community building, social skills, and cultural differences in meetings.
Project Management, Conducting Meetings, Community Building

April– August 2014   Mountain View, California
LOCALIZATION PROJECT MANAGER INTERN   Mozilla Corporation

I helped ship software releases in 80+ languages to 300+ Million users and have been an interface between hundreds of employees and volunteers. My activities have consisted in proactively plan upcoming localization work and ensure all stakeholders were aligned, but also create and ship new features for localization tools to support decision-making activities and help manage translations.

January — February 2014	Toulouse
DEVELOPER INTERN	**PSV.COMTV**

I developed a fully localized mobile App using Web technologies and learned internationalization best practices.

Project Management, JavaScript, internationalization

2012 – 2014	Toulouse
FREELANCE DEVELOPER	**PSV.COMTV**

I developed a PHP back-end for a dynamic screen network that displays commercials.

PHP, Customer Relationship

.Volunteer work

2012 — Today	
FRENCH LOCALIZATION LEAD	Mozilla

Managing the French-speaking volunteer localization team, onboarding new members and making sure translations are consistent across products and websites. I'm the author of the French translation of Firefox, Thunderbird and Firefox OS. I'm also involved in translating marketing material — in-product & social media communications, web pages, etc.
I believe in bringing openness, accessibility and opportunity to the Web and I'm proud of being part of that mission.

Working in a distributed team, Management, Project Management

Interests

- Online privacy protection — Speaker a several Free and Open Source Software events in France
- Open Source Software advocacy — I participated to several events where I promoted open source solutions.

Languages

- French — native speaker
- English — 15 years of practice in a scholar environment + 2 internships in California
